\* The Nurse Training School connected with the Lying-in Charity antedates this special provision in the Supplement to its Charter by at least twenty-three years.

The "Nurse Charity," which was long since merged with the Lying-in Charity, was established previous to the year 1839. No report previous to that year, however, is now known to be in existence; but the "Second Annual Report," printed in 1840, is in possession of the Society, and makes mention of having, "under the direction of the Physician, eight nurses, one of whom has completed her course of practical instruction, received the certificate of the Board and the Physicians," &c. Since that time the Nurse Training School has been regularly conducted—every annual report making reference to nurses under instruction.

# ANNUAL REPORT.

---

*Philadelphia, Nov. 18th, 1883.*

*To the Contributors of  
"The Philadelphia Lying-in Charity and Nurse School."*

In reviewing the operations of the several branches of the Institution for the past year, and comparing them with the results of former years, we are compelled to admit much monotonous sameness in the account we have to spread before you, and we are made renewedly sensible of the importance of prompting all those interested with us in the enterprise, to persevere for the accomplishment of a still greater amount of good. Hence, too, we are again constrained to spread before our fellow-citizens the character of the Institution, the extent of its present usefulness, and the great benefits it is calculated to afford to the various departments of society by its practical mode of training both physicians and nurses to usefulness and excellence; for, as has been once before pointed out in these reports, there are several important methods and improvements in nursing and managing the sick which originated in the Lecture Room of the Philadelphia Lying-in Charity, which have been carried by its pupils to every part of the world, some of them being now so widespread and so commonly known as to be considered items of general knowledge; the origin of them is, however, scarcely thought of, much less credited to the proper source.

These gratifying results are pleasant to contemplate, and afford much encouragement to the Board of Managers, prompting them to continue in the hope that their appeals for pecuniary aid will not forever be in vain.

We respectfully ask from each individual contributor an attentive perusal of the reports from our Physicians, Lady Visitors, and Treasurer.

That of the Physicians continues to show great efficacy in the professional management of the Obstetrical Department, and gives some very interesting statistics. That of the Lady Visitors shows how attentive and persevering they have been, despite the discouragement incident to the poverty and want of funds which the Lying-in and Nurse Charity labors under. An examination of the Treasurer's Report shows that the indebtedness of the Institution to him not only continues, but has increased more than \$500 since last year, being now \$1,022, even after reducing expenses to the very lowest possible limit. This ought not to be, and need not be, if each and every one of those who read this report would make us a contribution according to their means, or make an effort to procure subscriptions in aid of the Charity among their immediate friends—it would not be, if the public realized a tithe of the good done, and the suffering relieved by its ministrations. We confidently hope that our contributors will largely increase their donations. \$6500 ought to be raised. This sum would pay the debt due our Treasurer, and leave a balance of \$5,000 to invest for the permanent endowment of a free bed, so much needed, as pointed out in the Physicians' Report.

On behalf of the Board of Managers,

JOHN T. WARD,

*Secretary.*

## PHYSICIANS' REPORT.

---

*Philadelphia, Nov. 18th, 1883.*

*To the Board of Managers of  
"The Philadelphia Lying-in Charity and Nurse School."*

Your Principal Physicians would respectfully submit the following report of the operations of the several departments of the Lying-in Charity for the past year.

We have had applications for obstetrical, medical, and surgical treatment, during the year, from three hundred and sixty-four (364) patients. Two hundred and ninety-two (292) of them were obstetric patients; of these, 278 were attended at their own homes, and 24 in the Hospital Wards. Fifty-five patients attended at the clinics for diseases of females, and 17 others were treated for surgical diseases in the Hospital.

This shows a slight decrease in the number of outdoor patients, but not greater than the old reports show to have been a variation in number of frequent occurrence. The number of patients treated in the Hospital has been nearly doubled, there having been but 23 last year against 41 the present year. Among the obstetric patients there have been a considerable number of cases requiring the presence and aid of the Assistant Physicians, and our own personal attention. Such of them as have required and received the attention of the Lady Visitors in their kind distribution of nursing aid, have been greatly assisted in their recovery thereby. Not a single death has occurred among the mothers in the obstetrical department during the year, and but one among the 306

patients of the preceding year; thus showing a record of 598 obstetric patients and but 1 death during the past two years.

During the past thirty-two years, 10,544 obstetrical patients have been registered on the books of the Charity, among whom but 23 deaths have occurred, or 1 death to 458 patients. Two of these deaths are recorded as resulting from consumption of the lungs, and one from malarial fever, so that the real number of deaths from causes properly pertaining to the parturient condition is but 1 in 527 cases. This is, probably, one of the most favorable exhibits of obstetric practice anywhere to be found.

The 55 patients applying for relief at the clinic for diseases of women, made 373 visits. The diseases treated were as follows:

Anteflexion, . . . . .	6	Metritis, . . . . .	3
Anteversion, . . . . .	1	Neuralgia, . . . . .	1
Cancer of Uterus, . . . . .	1	Peritonitis, Chronic Pelvic, . . . . .	1

Hemorrhoids, . . . . .	1	Sub Involutum, . . . . .	1
Incontinence of Urine, . . . . .	2	Vaginitis, . . . . .	1

Seventeen patients were treated for surgical diseases in the Hospital, thirteen of them requiring surgical operations, as follows:

Lacerated Cervix, . . . . .	7	Tumor of Labia, . . . . .	2
Ovariotomy, . . . . .	1	Recto-Vaginal Fistula, . . . . .	1
Urinary Calculi, . . . . .	1	Lacerated perineum, . . . . .	1

Four others received medical and surgical attention, but required no special surgical operation.

During the year we have had associated with us the following named Pupil Physicians, who have been in attendance upon the obstetrical patients and at the lectures:

Isabella Cowie, . . . . .	India.	Chas. Bauer, . . . . .	Penna.

The following named Pupil Nurses are now under training in the Lecture Room and Hospital Wards:

Adelaide Johannis,  
Eliza Hatton,  
Anna Henthorne.

Susan Harvey,\*  
Amelia Robinson,  
Eva Schmitt.

The following named Pupil Nurses have during the past and preceding year finished their courses of instruction, and are entitled to the Certificate of the Institution. Several of them have acquitted themselves as most excellent and satisfactory nurses, to wit:

Mary J. Titus,  
Catharine T. Cox,  
Jane Hood,  
Anna M. Costello,  
Elizabeth L. Larkin,  
Isabella Cowie,

Electra Thompson,  
Sarah J. Denny,  
Eva Burr,  
Lizzie J. Stevenson,  
Hannah Henderson,  
Anna J. Robinson,

We would again respectfully call the attention of the Board to the urgent wants of the Hospital Department, and the necessity of providing free beds. The Hospital has already proved a very great aid in the matter of nurse training, and also a great blessing to several patients in humble circumstances, who have been able to pay the bare cost of board in the wards. But a large number of respectable and deserving women are constantly presenting at the clinics, or seeking admission from other sources, who are unable to incur even this expense. To such, a few free beds would have been, and would ever continue to be, an inestimable boon. We suggest that a definite and concerted effort be made to secure a sufficient endowment for this purpose.

To the Assistant Physicians we are indebted for much valuable aid. To the Matron, Dr. Sarah Taylor, we are also under many obligations for valuable assistance and co-operation.

Respectfully submitted,

J. G. ALLEN,

ALBERT H. SMITH,

*Principal Physicians.*

# LADY VISITORS' REPORT.

---

*To the Board of Managers of  
"The Philadelphia Lying-in Charity and Nurse School."*

In presenting our report we are pleased to be able to note some improvement in the affairs of the Charity, and though we greatly need more funds, we feel that in proportion to the extremely limited means at our command, we are doing a great deal of good for a worthy and deserving class of patients, whose necessities are of such a character as to make it impossible for them to plead as openly for help as can be, and is done, in other kinds of sickness and affliction.

We have given special aid to twelve cases of severe illness among the out-door patients; supplying them with nursing and nourishment. Many others were sadly in need of similar assistance, but we had no fund to aid them, being compelled to limit our relief to cases of extreme emergencies only; and we sincerely trust that some of our friends, appreciating the great need of poor women in the condition which we are caring for them, will heed our appeal, and generously aid us.

To Mothers, who themselves have means,—whose every want is lavishly provided for under similar circumstances,—we would especially appeal, and beg them to remember the deplorable and helpless situation of many of their less favored sisters. “Blessed are they that consider the poor; the Lord will have mercy on them in the day of trouble!”

We acknowledge the receipt of the following special donations, etc.:

Henry A. Moore, barrel of apples; Mr. Spicer, 8-day clock and large arm chair; Hood, Bonbright & Co., pair fine blankets; Mr. Dedlow, cleaning clock; Mrs. Clark, large lot old linen; Dr. J. C. DaCosta, 1 Turkey; Mrs. B. Brent, a wardrobe; copies of the *Friends' Intelligencer*, *The Friend*, *Friends' Review*, *Woman's Journal*, Taggart's *Sunday Times*; Friends' Tract Society, Bibles, Testaments, biographies and tracts.
